Erlangen, den 16.12.2022

Confirmation online studies (late arrival)

To whom it may concern,

This is to confirm that students who have been admitted to our Master's program in Medical Engineering for summer semester 2023 are offered the possibility to take online courses from their home country so that they can study remotely in their first semester until they receive their visa. **This means that students do not need to be in Erlangen for the start of the lecture period. Enrollment is carried out via post and does not require students' presence either.**

However, we expect our students to be present in Erlangen for the beginning of the exam period (beginning of July 2023).

Enrollment period for summer semester 2023: February 20th – March 31st 2023

Start of summer semester 2023: April 1st 2023

Start of lecture period: April 17th 2023

Regular duration of the Master's program in Medical Engineering: 4 semesters

Expected graduation date for students starting in summer semester 2023: March 31st 2025

Kind regards,

Claudia Barnickel

Study Coordinator Medical Engineering
